

ZTE Telstra T95 Battery Replacement

If the battery on your ZTE Telstra T95 is damaged this guide will show you how to replace it.

Written By: Jeeseenia Rios

INTRODUCTION

Replace the battery on your ZTE Telstra T95 in three easy steps. No background information necessary.

TOOLS:

- [iFixit Opening Tools](#) (1)
-

Step 1 — Battery

- Remove the back cover using a plastic opening tool. Insert it into each corner starting at the upper left of the back cover and pushing out.
- ❗ You may also use your finger nail if you do not have a plastic opening tool at hand.

Step 2

- Using a plastic opening tool, push out the battery by inserting it into the small groove at the top left corner of the battery and pushing out.
- The battery snaps out of place and you can remove it using your fingers.
- ★ When you are ready to insert a battery make sure the three copper teeth on the phone are aligned with the 3 copper dents on the battery.

To reassemble your device, follow these instructions in reverse order.
